

The background of the lower half of the page is a light gray color with a complex pattern of thin, orange lines that create a sense of depth and movement, resembling a perspective view of a grid or a series of overlapping planes. A large, bold orange plus sign is positioned to the right of the main text.

PERFORMANCE 
BY MERSEN

Global expert
in electrical power
and advanced materials,
Mersen partners companies
around the world that drive
today's industry and shape
tomorrow's society.
A committed partner and core
technology provider.

 **€879m**
in consolidated
revenues in 2018

 **6,900**
employees

 Present in
35 countries

““ At Mersen, our goal is to help you meet the technological challenges

that drive you forward and that shape our world. Whatever the sector and whatever the stakes, we draw on a broad range of products and services to help you define and design custom-fit solutions and processes.

Day after day, we deliver world-renowned expertise in electrical power and advanced materials to industry groups looking to develop their activity and meet tomorrow's technological challenges.”

+ Expertise —

ADVANCED MATERIALS

No.1

fuses

— Creating collective value

Mersen's two specialist business segments deliver expert solutions with the same exacting standards and focus for a range of different sectors including wind and solar power, electronics and fiber optics, rail, aerospace and aeronautics transportation, corrosive chemicals, process industries and more. We work hand-in-hand with industry manufacturers and operators to make tomorrow's solutions **more efficient and more reliable**. Wherever technologies are advancing and innovating, you'll find a little bit of Mersen.

Solutions that make a difference

Pushing boundaries is second nature at Mersen. For more than a century, we have provided industry players the world over with innovation to **improve their product performance and services**. Innovation that meets the constraints of technological change as companies move further and faster. Whether you need to cut costs, streamline your efficiency and the useful lives of your consumables, or even respond to changing consumer habits and preferences and the boom in the green economy, Mersen has a full spectrum of innovation in the service of industrial performance.

+ proximity

Present in
35 countries

>50
industrial
sites

A core provider

Creating value for our clients means understanding their needs, their challenges and their constraints. It also means understanding their environments, both geographical and competitive. With more than 50 industrial sites in 35 countries, Mersen works **side-by-side with its clients at the heart of its markets**, developing strong ties to offer made-to-measure, high value-added solutions at every level. A relationship of trust in transforming challenge to opportunity.

— A comprehensive offer

GRAPHITE SPECIALTIES

- Unique expertise in high-performance materials and solutions for high-temperature and extreme environment production or operation
- Graphite, carbon/carbon composite, carbon insulation, flexible graphite and silicon carbide (SiC) solutions for the process, aerospace, solar PV and electronics industry

NO. 2 WORLDWIDE IN HIGH-TEMPERATURE ISOSTATIC GRAPHITE APPLICATIONS

ISOSTATIC AND EXTRUDED GRAPHITE

Graphite electrode for electrical discharge machining

Die for continuous casting of copper alloy, precious metals and cast iron

Support for hot-glass handling

Wafer holder for substrates in semiconductor manufacturing

Polysilicon manufacturing electrode

RIGID AND FLEXIBLE CARBON INSULATION

Rigid CBCF insulation for industrial furnaces

Soft-felt insulation for polysilicon furnaces

Hybrid rigid/soft-felt cylinder-form insulation for heightened performance

PAN soft-felt permeable electrodes for energy storage

Rigid CBCF insulation for high-temperature sintering furnaces

CARBON/ CARBON COMPOSITE

Brake disk for aircraft

Component support for high-temperature furnaces

Accessories

SSIC SINTERED SiC

Structural component for space and ground telescopes

Mirror for space and ground telescopes

Plate for continuous flow chemical reactors

Mirror and laser scanner for industrial applications

FLEXIBLE GRAPHITE

High-performance static graphite seals

Thermal protection and insulation

Dynamic graphite seals

ANTI-CORROSION EQUIPMENT

- Design and manufacture of process equipment to resist corrosive environments in the chemicals industries: graphite, silicon carbide, noble metals (tantalum, zirconium, titanium), nickel alloys and fluoropolymers
- Services and maintenance

NO. 2 WORLDWIDE IN GRAPHITE-BASED ANTI-CORROSION EQUIPMENT

ENGINEERING SYSTEMS

- HCl production
- HBr production
- Dilution and concentration of acids
- Other systems

HEAT EXCHANGERS

- Block form:**
- in graphite
 - in silicon carbide

- Tubular form:**
- in graphite
 - in silicon carbide
 - in tantalum
 - in zirconium
 - in titanium
 - in nickel alloy

COLUMNS, REACTORS AND PRESSURE VESSELS

- In graphite
- PTFE lined
- CL-Clad® tantalum cladding
- In zirconium
- In titanium
- In nickel alloy

PIPING, BELLOWS AND ACCESSORIES

- PTFE lined
- PFA lined
- In tantalum
- In zirconium

BURSTING DISKS

- In graphite

POWER TRANSFER TECHNOLOGIES

- Technical solutions for motor applications and generators
- Customized solutions and dedicated enhancement and reengineering services
- On-site expert assessments
- Motor maintenance services

NO. 1 WORLDWIDE
IN BRUSHES AND BRUSH-HOLDERS
FOR INDUSTRIAL ELECTRIC
MOTORS

BRUSHES AND BRUSH-HOLDERS

For wind turbines

For DC motors

Traction motor brush-holders

Plug sets for thermal power plants

BRUSH ROCKERS & SLIP RING ASSEMBLIES

For generators and alternators

For asynchronous motors

For hydro power generators

For hoisting

CURRENT COLLECTORS

Contact strips

3rd rail Current collector deviceshoes

Sliding contacts

COMPLETE SOLUTIONS

Pitch slip rings for wind application

MERSEN DustCollector

MERSEN Total Monitoring

Wheel flange lubricating sticks & applicators

ELECTRICAL PROTECTION & CONTROL

- A full range of fuses and fusegear systems and devices
- Surge protection systems and devices

**NO. 2 WORLDWIDE
IN INDUSTRIAL
FUSES**

UL FUSES AND FUSEGEAR

Bladed fuses

HSJ high-speed fuses

Medium voltage fuses

Medium voltage controllable fuses

IEC FUSES AND FUSEGEAR

Helioprotection® gPV fuses

Low voltage fuse systems

Low voltage AC and DC switches

DIN and French standard high voltage fuses

SURGE PROTECTION DEVICES

Power Line SPDs - NEMA UL/CSA

Power Line SPDs - DIN Rail IEC/UL/CSA, PV

LED Lighting SPDs

Surge Protection Components

POWER TRANSFER FOR RAIL VEHICLES

Earth return current unit

3rd rail current collector device

Fuse box

On-board switch

SOLUTIONS FOR POWER MANAGEMENT

- Passive and hybrid components for high-performance power conversion and batteries systems' improved safety and reliability

NO. 1 WORLDWIDE
IN THE SUPPLY OF PASSIVE AND HYBRID
DEVICES FOR POWER ELECTRONICS
AND BATTERY SYSTEMS

OVERCURRENT PROTECTION FOR SEMICONDUCTORS AND BATTERIES: HIGH-SPEED FUSES & HYBRID SYSTEMS

Standard and high performance power converter protection

Traction and railway converter protection

E-mobility protection

Hybrid DC protective devices

COOLING SOLUTIONS FOR POWER ELECTRONICS

Air heat-sink

Embedded heat-pipe air heat-sink

Liquid cold plate

Heat-pipe cold wall

BUSBARS

Laminated busbar for high-voltage inverters

Laminated busbar for high-frequency drives

Smart monitoring busbar for battery packs

Backplane power distribution laminated busbar

CAPACITORS

Electrolytic capacitors

Film capacitors

Customized capacitors, for ex. capacitor bank on laminated busbar

**A responsible

A balanced Governance model

Mersen's Board of Directors and executive management are committed to acting in the best interests of the Group and its stakeholders and to upholding the highest standards of ethics and transparency.

A reference framework and commitment to progress

As a signatory of the United Nations Global Compact since 2009, Mersen policies and actions are guided by the organization's principles and directives.

Ethical practices for an exemplary model

Mersen's Code of Ethics applies individually and collectively to all of the teams and officers that make up the Group's ecosystem around the world.

Develop innovative and sustainable products

Mersen is committed to engaging all of its teams in the search for solutions that ensure the thriving development of green energy and green industry and that optimize the ecological footprint of its products.
