

Select-A-Fuse[®] Online

Choose the right overcurrent fuse protection quickly and accurately

Save Time with Select-A-Fuse[®] Online

Fuse selection is fast, easy and accurate with Mersen's Select-A-Fuse Online tool. Now you can quickly and accurately choose the right overcurrent protection for low- and medium-voltage motors, power and control transformers, and general loads.

With the new online version, you can do even more. In addition to product specs, melting time and peak let-thru curves, and the ability to check fuse coordination, our enhanced Select-A-Fuse online tool features:

- An Arc Flash Calculator you can use to calculate incident heat energies for Mersen's Amp-Trap 2000[®] current-limiting fuses
- Data and selection routines for our low- and medium-voltage capacitor fuses, High-Speed J fuses and FSPDB finger-safe power distribution blocks
- A cross-reference list with more than 18,000 entries

Select-A-Fuse online saves you time and effort, and best of all, it's free. Visit the web address below to register and start using Select-A-Fuse Online today.
